CLAY CITY, KY., THURSDAY, NOVEMBER 30, 1922

NO. 48.

Where is Clay City's Gas?

Clay City could now be enjoying the comforts and profits of natural gas if the people of this town had have shown the proper spirit of progress. Millions of feet of this valuable business blinder is confined only two miles from our town while we are sleeping. Thousands of dollars will be spent for coal this winter to keep us warm while hundreds of dollars spent to get natural gas would do the same thing. Investing in natural gas, is helping your neighbors and friends, and your pocketbook. Investing in coal is helping the freight carriers and the coal operators and miners, that may justly be termed disrupters of the country. The best way to get the gas here seems to be to organize a stock company of home people. Let the users of the gas be the stockholders of the gas company. While the Times has all along been opposed to promoting stock companies not acquainted to us. We are for all home companies organized by honest men for a worthy purpose. We are in heart and hand to get the natural gas, lying at our door, piped into our homes and business establishments.

Preaching at Methodist Church

The ceiling in the Methodist church having been completed, there will be preaching as usual the first Sunday by the pastor, the Rev. J. R. Nelson. There has been no preaching at this church for several weeks, owing to the repairs going on in this church. The church has a beautiful new steel ceiling which the congregation is justly proud of.

Mr. Osear Staples, who did the job has had a tedious time of it on account of the irregular surface of the different joints which made the matched ceiling hard to properly join up.

Improving Road

W. F. Barnett and Ike Burnett have done one of the best jobs in years of crowning and grading the two-mile stretch of road from the river ford at Clay City to the bridge at P. D. Todd's on the Irvine road. With a little additional attention as to opening up ditches and putting in culverts, the grade work on this road is complete.

Swango Gets 10 Years

Jesse Swango was found guilty of voluntary manslaughter at Stanton last week when he was tried before a jury from Fayette county. The jury was out two hours. The decision was a compromise verdict. Two of the jury were for acquittal on the first count. The case was very stubbornly fought on both sides.

Lets Have a Thankful Thanksgiving

We trust all our readers will enjoy this Thanksgiving by giving thanks. Big hunts are often attended by fatalities which we hope will not occur in Powell county this time.

New Highway Proposed

Irvine is getting on one of the through highways to be designated as the "Kentucky" Highway. An association is being formed in each of the counties through which the road will run similar to the Ky-Va association. The road is to run from Richmond to Cumberland Gap where it will connect with a Federal highway in Virginia and will pass through Irvine, Beattyville, Booneville, Manchester, Barbourville, Pineville and Middlesboro.

Subscribers Anxious

Several subscribers seem interested about their subscription accounts, and have written us for statements, but most of them send in remittance to be paid up by the new year, which will soon be here. The fact that we are building a new home makes these funds very acceptable at this time.

Elder P. N. Taylor Here

Elder P. N. Taylor, of Irvine, is here to visit Powell's Valley Baptist church and the Baptist membership. Bro. Taylor is a very able minister who has devoted his life in the ministry to the weaker churches of the mountains. He is real deserving and the Baptists of Clay City hope to some day be able to have him preach here.

Summoned Men Fined

Six of the sixty Fayette county men summoned to this county for the purpose of selecting a jury in the Swango case failed to report up Wednesday morning and each of them were very promptly fined \$25 each for failure to do so.

Mize to Have Sale

W. O. Mize will have a public sale of personal property at his place at Kimbrell, Wednesday, December 6, and move to North Middletown, Ky., where he and Geo. W. Bush have purchased property and will run a store.

Fifty-three Fined or Jailed

At the recent session of the Federal court at Richmond there were 53 fined or jailed. Fifty-two of these were for violations of the Prohibition laws.

Moves Drilling Rig to Pilot

Coleman Hall has moved his drilling rig from Virden where he has been drilling gas wells, to Pilot, where he will resume drilling for oil.

Feed Sale

In this issue of the Times Geo. W. Pasley, administrator, is advertising a lot of feed at public sale near Spout Spring, Wednesday, December 8.

Fine Weather Continues

Fine winter weather continues with us, and many a porker has suffered the past few days.

Old Citizen Returns

James C. Townsend and family arrived here Monday from White Lake, Wisc., after seven years from the county. They came through in automobile a distance of 900 miles. Mr. Townsend said in covering this many miles of road it was either concrete, brick, asphalt or gravel, until he reached Winchester. Mr. Townsend said the gravel road was best, the brick next best, concrete next, with asphalt last. He said that he could make better speed on gravel, and get more miles per gallon of gasoline, than with any other kind of road.

Mr. Townsend owns 80 acres of good farming land in North Wisconsin, and we learn from other sources that he is making a success of it.

Potatoes, wheat and oats are the staple crops there with corn a good second. He and his family will remain in Powell county until Spring when they will return to their home in Wisconsin. Mr. Townsend had a daughter to marry three weeks ago, who is not with him.

McPherson-Burgher

John McPherson, of Oakdale, Breathitt county, and Miss Ola Burgher, daughter of Mr. and Mrs. John W. Burgher, of Vaughn's Mill, were married in Clark county Thursday, Nov. 23rd. Mr. McPherson is a former resident of Clay City and a splendid young man. Miss Ola is a leading young lady of her community and very popular with the young folks. The Times joins their many friends in extending congratulations and wishing for them a long and happy life.

New Engine Arrives

The new twenty-horse power gas engine for the electric plant has arrived and is being installed. The new generator is expected in a few days when there will be no lack of current, night or day in Clay City. Electricity for light and small power cannot be equaled from any other source.

VanArsdale Sells Grocery

R. L. VanArsdale has sold his grocery store in Mt. Sterling Mr. VanArsdale married Miss Dena Hadden, a Clay City girl, and a cousin to Mrs. Sam Carr of this city.

Preaching at Powell's Valley

Nightly services began at Powell's Valley Baptist church Wednesday night and will continue over Sunday. Elder P. N. Taylor is conducting the meeting.

Snow Sunday

The first snow of the season fell Sunday night but it soon melted away.

Sells New Ford Touring Car

Joe Mountz reports the sale of a new Ford touring car to Miss Olga Tracy.

Farmers' Tax Problems

Taxpaying time is up today and the farmer must dig up or pay the 6 per cent penalty tomorrow. The Frankfort taxgatherers have forced the farmer to pay the highest tax on his land in history. For the convenience of this Frankfort bunch's amusement, (but it should be a remorse of conscience, if they have any) we give a comparison of prices of what the farmer must sell now to pay this tax, with those three years ago. These prices are taken from figures prepared by the U. S. Government as of Nov. 1st each year. Fractions of cents dropped:

Article	1919	1922	Loss
Wheat	\$ 2.13	\$.97	\$1.16
Corn	1.23	.62	.71
Oats	.68	.34	.34
Barley	1.17	.51	.66
Rye	1.29	.67	.62
Potatoes	1.52	.69	.83
Hogs	13.88	8.33	5.55
Beef Cattle	8.65	5.48	3.17
Veal Calves	12.87	8.17	4.70
Sheep	8.46	5.93	2.53
Horses	114	81	33
Sweet Potatoes	1.43	.80	.63
Apples	1.82	.98	.84
Hay, per ton	19.36	10.36	9.00
Cotton, per lb.	.36	.22	.14
Butter	.56	.38	.18
Eggs	.51	.37	.17
Chickens	.32	.18	.11
Wool	.50	.32	.18

Trade conditions have decreed in the past three years that prices of farm products should come down 50 per cent. The taxgatherers at Frankfort have decreed that farm taxes must go up. Shall we farmers of Powell county submit to it or shall we stand a suit to test the justice of Tax Commission dealing with us?

Healthful Kentucky

Kentucky was healthier last year than the average of the thirty-eight states included in the registration area of the United States Bureau, it is shown by a report of the Bureau made public here today by the State Board of Health which gives Kentucky's death rate for the year as 10.5 while the average for the thirty-eight states was 11.3, a difference of .8 in Kentucky's favor.

In comparison with the states adjoining it, Kentucky also makes a good showing, only one neighboring state having a death rate lower than Kentucky's, one other having the same rate, and all others having a rate higher than this Commonwealth's.

Of these states Missouri, with a death rate of 10.3, made the best showing. Kentucky and Ohio, with rates of 10.5, came next. Then, in order, came Indiana, with a death rate of 10.7; West Virginia, 10.8; Tennessee, 11.1, and Virginia, 12.7. West Virginia is not yet in the registration area of the United States Census Bureau, and the figure given for that state is its own.

The reduction in Kentucky's death rate from 11.8 to 10.5, or 1.2, is under the average reduction of 1.5 effected by the thirty-eight states of the registration area, the report also shows.

STANTON.

Circuit Court has been well attended here this week from all parts of the county.

The health of Stanton seems to be pretty good at present with the frost on the pumpkin.

Davy Howell, former cashier of the Powell County Bank, was visiting Dr. J. E. Lemming Monday night.

Mrs. John D. McAnallan, who lost her arm from an explosion some time ago has about recovered. Mr. McAnallan's brother is visiting him at the present.

The case against Jesse Swango for the killing of Wayne Bowen which caused a great deal of interest was tried before a Fayette county jury which rendered a ten year sentence in the penitentiary.

Folks around here are anxious for Mr. McAnallan to return with a new car for exhibit, called the "Star" which bids fair to become as popular as the "Ford." The Stanton Garage is also selling the "Durant."

The good roads meeting of the "Ky-Va" Good Roads Association met here last week at the Stanton Academy. The speaking was interesting, all assuring us that the road was certain to come. We are sorry however there was but a few present, as most the people here were too much interested in Circuit court.

36 Paroled Tuesday

Whatever criticism may be made against those in control at Frankfort for pardoning and paroling criminals, the shameful work never ceases. Thirty-six of the boys were turned loose by parol Tuesday to mingle among the law abiding citizens of the Commonwealth.

Car of Coal Arrives

A car load of coal arrived here the first of the week which was readily taken up at \$9.00 per ton. The cost of natural gas would not be one-half so much for the same purpose.

Mrs. C. L. Smith and son, Hoke, are in Dayton, Ohio for a week's visit with the former's brother, Tilden Tracy.

Mr. and Mrs. Edmon Burgher, Mr. Wm. Johnson and Miss Orpha Burgher spent Saturday night and Sunday with relatives at Ravenna.

Miss Lillie Burgher and Miss Grace Martin and Messrs. Trimble May and Talbett May spent Sunday with Mr. and Mrs. G. Hackworth at Ravenna.

Mrs. W. G. Patrick was here yesterday to meet her son, Luther, who came down on the train from Pine Ridge where he is attending the Alvin Dene School.

FOR SALE—40 acres unimproved land situated on Frame's Branch. A county road is now being opened direct to this farm. Everen Barnett, Spout Spring, Ky.

THE TIMES

THURSDAY, NOV. 30, 1922

Entered as second-class mail matter at the Post Office at Clay City, Ky., under the Act of Congress of March 3, 1879.

SUBSCRIPTION RATE,
ONE DOLLAR PER YEAR.

The year 1918 saw many methods of investment of the people's cash in this county. Among them being oil stock, Government savings stamps. The oil stock salesmen made glowing promises of immediate profits of astronomical dimensions. The war savings stamps on five year loans paid about 4 per cent., on the investment while loan deposits paid 3 per cent. with the use of the money any day if you needed it.

About 75 per cent. of the money invested in the oil stocks proved to be worthless. But how about your stamps and bank deposits? There has not been a day but what each of them has been worth 100 cents to the dollar in gold. Beware of the various stocks offered you. Their value is all to the slick salesman and the officers of the company promoting it. There is none for you. When you get your pay for the stamps put it in the bank if you do not reinvest it in Treasury savings certificates.

The L. & N. Railway is advertising the fact that claims for loss and damage to freight handled by their lines have decreased in number from 43,965 for the first six months in 1920 to 17,610 for the first six months in 1922, and in value from \$1,451,479 for the first six months in 1920 to \$479,857 in 1922. And still there is far too much damage to freight, far more than necessary. Thousands of dollars of small damage is never claimed by shippers. It is the will of all the railroad companies that there be no damage whatever to freight in shipping, and they pay for careful handling. The damage all accrues by unnecessary rough handling.

If the employees were required to make good all damages caused by their own careless acts they could be paid better wages with the saving and freight rates could be reduced.

The good roads meeting at Stanton went on record last week

as favoring a \$75,000,000 bond issue for roads. This is a mistake. Roads are costing too much now for all the revenue for the next thirty years to be spent on them. The Times is for a bond issue when the roads can be built at a fair price, but an average of \$15,000 per mile for building good dirt roads in counties like Powell is far too high.

We like President Harding because he, like the writer, is a Baptist and a newspaper man, but it is impossible for the writer to see how he can consistently be opposed to a bonus for the boys who went to France in haste and danger and favor a bonus for the ships that ply the waters to that and all other countries in peace and safety.

"Our Family Medicine"

"I WILL WRITE you in regard to Black-Draught liver medicine, as I have been using it more than 13 years," says a letter from Mr. S. F. Mintz, of R. F. D. 2, Leland, N. C. "I keep it in my home all the time, for it is mostly our family medicine. When we begin to feel feverish or sluggish, with trouble from the liver or stomach, we take a dose of Thedford's Black-Draught and the trouble is soon over. I mostly buy a dollar package at a time, and it has saved me many a bill." Thedford's Black-Draught is a

purely vegetable remedy, acting on the liver, stomach and bowels. It is made from selected herbs and roots, and contains no calomel or other mineral drugs.

It has been found of great value, in indigestion, stomach trouble, sick headache, constipation, and lazy liver, helping to relieve the symptoms caused by these troubles, and to put the digestive system into proper working order. Get a package of Black-Draught liver medicine from your druggist or dealer, today. Be sure to get the genuine—Thedford's.

"It is to be hoped that every person who can do so will exchange War Savings Stamps, soon to fall due, for Treasury Savings Certificates, says Postmaster Phetigo. "The large amount of money invested and the great number of persons who purchased War Savings Stamps showed that the people of this country could save money when the necessity arose. Now if they will take the money they saved when they bought stamps to aid the Government in the prosecution of the war and buy Treasury Savings Certificates, they will demonstrate that the thrift lessons of the war have not been without effect. The holders of War Savings Stamps have seen investments of about \$20.50 grow to \$25.00 in five years, and larger amounts in the same proportion. They can see the same thing repeated if they reinvest in Treasury Savings Certificates. Interest accumulates at the rate of 4 per cent each year, compounded semi-annually. These savings certificates are exempt from the normal Federal income tax, and from all State and local taxation (except estate and inheritance taxes), and may be held to the amount of \$5,000, maturity value, for each issue, by every member of a family. They are backed by the credit of the United States Government, and afford an easy and sure method of saving."

Beneficial Government

What the people of this country need is Beneficial Government. We do not need a law to aid the few. We need laws to aid the masses, not the class. If the ship subsidy bill passes it will make rich those Americans operating ships over the seas and the taxpayers of the country pay the bill. Will any reader of this paper be benefited by such a law. No. If Congress should pass a measure to prosecute the coal operators and make them sell coal at fair instead of robbing prices, it will be a benefit to every citizen of the land. Is there a proposition to do that? No. What's the matter? In Russia when men band together to extract other people's property, they are called Bolsheviks. In this country when a few people band together to extract money they do not earn, they are called crowd business men. The difference is in just who you are and how much money you have. It's a shame if you have no money to extort from those who have; it's a cunning business act if you have plenty of money but devise a plan to extort much more from many people who have but a living.

Repeal the Law

Governor Edwin P. Morrow Tuesday granted pardons to L. V. Williams and C. F. Wheeler, charged with hunting on the property of Albert Miller in Jessamine county without the consent of Mr. Miller. To the above report the Times says repeal the law and save the people of Kentucky the humility of reading so many pardons and paroles from Frankfort.

prospect of a good road at an early date. Mr. Garrett informed yesterday that the contract from Bowen to Stanton was let soon. We certainly appreciate the interest Mr. Garrett has taken in our behalf and he has always been one of Powell county's progressive workers and we are proud of him.

Austin W. Faulkner, youngest son of the late George Faulkner, and Miss Grace Dale, of Hazard, surprised their many friends by quietly stepping into the office of Dr. Riggs, and in presence of the bride's sister, Miss Minn Dale, and Dr. Riggs had the marriage ceremony pronounced on November 7th, and kept their marriage a secret for several days. The bride is the daughter of C. C. Dale, merchant of Hazard, a charming young lady, has made many friends during her short stay in this county. Many friends here join in wishing this happy young pair a long and happy life.

One report says there was a loss of \$485,000.000 by fire in the United States last year or \$147 per capita. This report does not state how much of this was insured, but one thing is certain, if there had not been so much insurance there would not have been so much loss by fire.
